ENERGY NEWS  
YOU CAN USE

## SO MANY WAYS TO CREATE A HOME FULL OF SAVINGS

Summers are such a great time to enjoy the outdoors, spend time with friends and family and be productive, too. Before summer slips into fall, take a look around the house and make sure you're taking advantage of all the creative ways to help you save on your energy bills.

It could be as simple as running the ceiling fans in counterclockwise direction to properly circulate the air throughout your home. Or setting the thermostat just a little higher so you're still comfortable but you're using less energy. Have you cleaned or replaced air and HVAC filters? This makes a big difference in the efficiency of these appliances. Also, upgrading your home's insulation can keep

you cooler in the summer and warmer in the winter—comfort all year round!

It's also the perfect time to complete your home energy assessment. It's FREE and you could even receive free energy-saving products right on the spot! You'll get personalized tips and recommendations on ways to improve the efficiency of your home, and find rebates and discounts on energy-efficient products. It's all part of the ComEd Energy Efficiency Program, which helps you save money, save energy and potentially reduce your carbon footprint for a cleaner tomorrow. Don't miss all the rebates and discounts available on home products and appliances!

### *Electrification is trending...*

From electric vehicles to electric stovetops, many homes are going electric to save energy and be more environmentally friendly. An efficient way to heat and cool your home with just one system is with an air-source heat pump. Did you know they are up to 4x more efficient than traditional systems? They offer year-round comfort, quiet operation, and can increase your home value, too.

Check out our new lifestyle magazine at [ComEd.com/TheEfficientHome](https://ComEd.com/TheEfficientHome) for easy energy-saving tips and smart ways to stay efficient for every season!

just for you...

Fewer outages, shorter  
restoration times...

**YET SMART TO STAY  
INFORMED.**

While our area continues to face more powerful storms, ComEd continues to focus on grid investment and innovations, helping customers avoid interruptions and save more than \$3 billion dollars in outage related costs.

To stay informed during severe weather and possible outages, sign up to receive outage alerts. **Simply text 'ADD OUTAGE' to 26633.** Once enrolled, you will automatically receive a text message about a known outage, and again typically 30 minutes after we have confirmed the outage information.

You can also report an outage and track the status of estimated time of restoration using our new Outage Tracker. It's available on the mobile app or online at [ComEd.com/OutageTracker](https://ComEd.com/OutageTracker)

# ENERGY COSTS ARE ON THE RISE. LET'S LOOK AT WAYS TO MANAGE THEM.

Electric bills in the ComEd service territory are up about 10%. That's because the price of electricity on the wholesale market has gone up. ComEd buys that electricity and passes the cost on to you without any markup. While we can't control market prices, we're here to support you in any way that we can.

One way we're helping is through the newly launched \$10M **ComEd Customer Relief Fund**, which offers one-time financial assistance to customers struggling with rising energy costs. While funds last, eligible residential customers can receive grants of up to \$500, while eligible nonprofit organizations can receive grants of up to \$1000 to apply to past due bills. To learn more, visit [ComEd.com/Relief](https://ComEd.com/Relief).

You may also find recommendations through the **ComEd Smart Assistance Manager (SAM)**. Use this free online tool to get personalized tips to help you manage your monthly bills. From bill assistance and billing options to ways to help you reduce your energy use and save, SAM offers customized support that puts you in control.

- **Assistance Options** include Payment Arrangements, the Low-Income Home Energy Assistance Program (LIHEAP), Fresh Start Services, and more programs to help reduce your monthly bills.
- **Billing Options** include Budget Billing, Due Date Extensions, Deposit and Late Payment Charge Waivers, and other programs that help you manage bills each month.

- **Managing Your Energy Use** through the award-winning ComEd® Energy Efficiency Program helps you control how you use energy. Schedule a free energy assessment, sign up to receive High Usage Alerts, enroll in Peak Time Savings or Hourly Pricing, and more, all designed to help you reduce energy use and save.

There are a variety of programs, resources, tips and offerings available to all of our customers. See which ones are right for you.

## The real flex? A lower bill!

If you're flexible about how and when you use energy, you can save on your monthly bills and potentially reduce your carbon footprint, too. These two options make it easy!

Hourly Pricing is a supply rate that lets you pay for electricity at the hourly market price. Simply shift some of your energy use to lower-priced hours, like doing laundry and running the dishwasher at night. Enroll at [ComEd.com/HourlyPricing](https://ComEd.com/HourlyPricing).

High Usage Alerts notify you when your energy use is trending higher than normal so you can make changes to help you save. Choose text, call or email notifications.
